PROJECTS

- Created a web application where you can search for a list of music artists songs using the lyrics.ovh api.
- Constructed a simple website where you refresh the webpage for random images from unsplash.
- For final in the HTML/CSS class, I replicated the required website that was responsive and added simple form validation with JavaScript. I accomplished the final with a score of 100%.
- Replicated the Spotify desktop app UI. I used CSS flexbox to build the layout of the page.
