- User Interface Design
- User Experience

Walla Walla High School

Fall 2015 – June 2019

Relevant Coursework
- Microsoft Office Applications
- Computer Programming
- Computer Science

- Graphic Arts
- AP Computer Science

Projects

- **MonterMash**: For the final project in my HTML/CSS class, I replicated a specific design ensuring that it was responsive and included simple form validation using JavaScript. I achieved a perfect score of 100%.

- **Tottenham Hotspur**: Created a simplified version of the Official Tottenham Hotspur website. Some elements were replicated like the article grid and mobile menu. I added image animations and made it responsive.

- **Newsletter**: I created the frontend of a newsletter sign up form with HTML, CSS, and JavaScript. It is responsive and has simple email validation with both error and success messages.

Certifications

- Microsoft Office Specialist – 2013
  - Word
  - Powerpoint
  - Excel
  - Access
